

STOP CLOSURE OF VEGREVILLE CPC

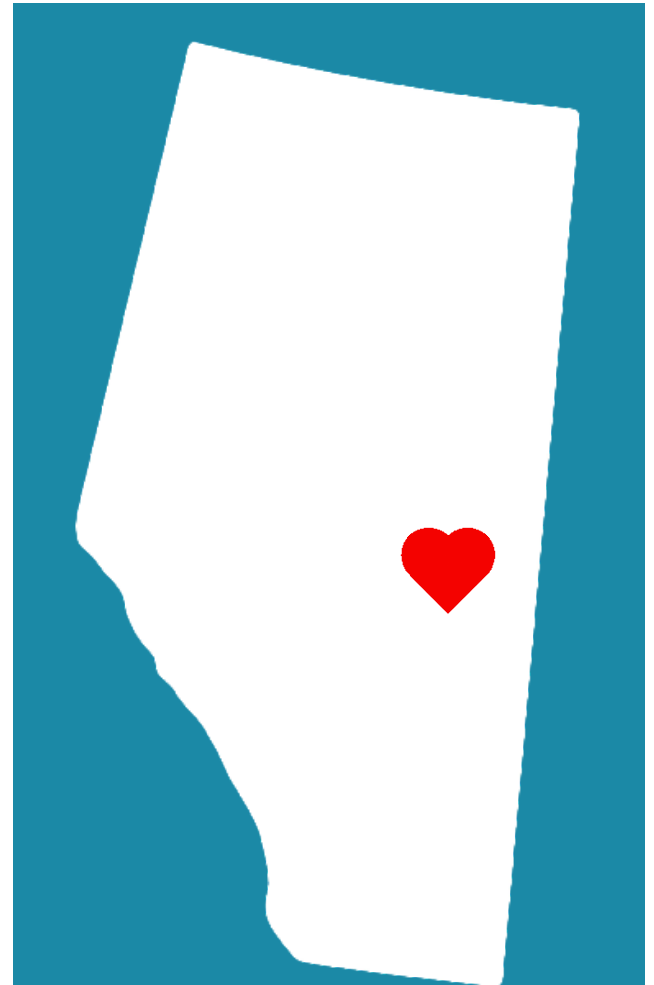

Rural communities play a vital role in Canada, and we need to ensure that our communities stay vibrant and strong. The closure will devastate a rural Alberta community already hard hit by the current economic climate.

Employees have families to consider and cannot just move to Edmonton. In many cases, they have children and elderly parents they're caring for, or live and work on farmland. Commuting is not a realistic option, as it would mean longer days, less time with the family, and added expenses that are cost-prohibitive for most.

For a government that campaigned to 'strengthen our communities by investing in the things that make them good places to live', this announcement is yet another failure to meet their election promises at the expense of this community.
